General Director:	_____
Product Director:	_____
Quality Director:	_____
Information and Documentation Director:	_____
Project Director:	_____
Director of Automation:	_____
Director of Energy:	_____
Director of Telecommunication:	_____

Purpose of the meeting:

- > Show work progression
- > Discuss tasks to be developed

Discussion:

This meeting began with António Pan and Tomás Cadete from the automation team showing the integration of their code, both the display and the LED strip.

Furthermore, the electric schema of the connection between the power-banc, the LED strip and the Raspberry Pi was discussed. The issue of connecting the grounds was aborded and an agreement was reached to do further research about this topic.

In the meeting, it was also discussed how the battery percentage should be shown in the display and how to do it.

Taken decisions:

- ➔ Continue existing tasks
- ➔ Investigate the connection of the grounds
- ➔ The members who are available on Wednesday (7 of June) should reunite in FEUP to test all the materials and assemble the materials of the lamp.
- ➔ Try to implement the battery level control
