

Meeting Minutes nº 3

Location: Online - via *Discord*

Date: 23/03/2023 **Begin** 15h:00min **End** 15h:52min

Attendees:

General Director:	_____
Product Director:	_____
Quality Director:	_____
Information and Documentation Director:	_____
Project Director:	_____
Director of Automation:	_____
Director of Energy:	_____
Director of Telecommunication:	_____

Purpose of the meeting:

- >Distribute tasks
- >Check status of “Midterm Report”
- >Present solutions for communication protocols and data transfer of the microcontroller

Discussion:

This meeting began by checking the status of the file “Midterm Report” to be delivered the following week and to discuss and clarify some minor ideas some members had about it.

On the second part of the meeting, the Telecommunication Department team presented their findings about solutions for communication protocols and data transfer of the microcontroller. It was concluded that MQTT and HTTP were to be used on the project.

Taken decisions:

- > The microcontroller will use HTTP and MQTT communication protocols to transfer data using the microcontroller.
- > Finalize tasks for deliverable “Midterm Report”.
