Meeting Minutes nº 9

GlowTech

Location: Online - via *Discord*

Date: 18/05/2023   **Begin** 15h:00min   **End** 15h:55min

Attendees:

General Director:	_____
Product Director:	_____
Quality Director:	_____
Information and Documentation Director:	_____
Project Director:	_____
Director of Automation:	_____
Director of Energy:	_____
Director of Telecommunication:	_____

Purpose of the meeting:

-> Clarify some ideas related to the work

-> Discuss the organization of the database

-> Discuss tasks to be developed

Discussion:

This meeting was scheduled in order to discuss some new information given by the supervisor, related to the acquirement of the energy price and how the tariffs should be implemented in the displayed. The Energy department presented and discussed this issue with the rest of the team.

Furthermore, the team debated about the display and how the information should be presented to the client, in particular how the client should navigate when the prediction mode was selected.

Taken decisions:

➔ The Energy team should make the database according to the different tariffs
➔ The Telecom team should work on the connection between the database and the microcontroller.
➔ The Automation team should work on the buttons, display, LEDs and the state machines' code.
